Special Dispatch to The Evening Telegraph.

HARRISBURG, Jan. 18.—To-day being the time fixed by law for the installation of the Governor elect, the ceremonies attending the second inauguration of Governor Geary have been the occasion of an unusual flutter in our permanent population, as well as of an unusual increase in the number of visitors to the capital.

The trains which arrived in the city last night and this morning were crowded with patriotic and curious citizens from all sections of the State, the arrivals being principally of military and firemen's organizations and political clubs having a permanent organization or gotten up specially for the occasion.

From an early hour this morning the streets have presented a lively spectacle, and the entire city has entered into the celebration of the great event of the day with all the ardor of the American people.

The Grand Procession was the principal and most attractive feature of the affair. The different organizations which had been allotted places in the line assembled, according to the instructions issued yesterday afternoon by the Grand Marshal, in the following order, and at the places named:—

At 11 o'clock the procession started over the following route:—

number, or perhaps all, of the Harrisburg fire companies would leave the line. There was much excitement in consequence, and the developments were anxiously looked for.

When the procession had gone over a portion of the prescribed route, and had reached Market Square, the Friendship Steam Fire Engine Company, No. 1, of Harrisburg, left the line and went home. There were some manifestations of both applause and disapprobation among the spectators. The Friendship is largely composed of Democratic members.

After the Friendship company left the line all the other fire companies of Harrisburg followed their example. It was reported at first that the Philadelphia fire companies also left the line, but it turned out that only the Harrisburg companies did so, while the Philadelphians remained and completed the entire route.

The Inaugural Ceremonies transpired in front of the Capitol building, as usual, and were commenced as soon as the procession reached this point and was satisfactorily arranged. After the oath of office had been administered, Governor Geary delivered the following Inaugural Address.

Fellow-citizens—Having been honored a second time by the voluntary suffrages of my countrymen as their choice for Chief Magistrate of the Commonwealth of Pennsylvania, I have, in the presence of God and of this assembled multitude, renewed the solemn and binding obligation required of me by law, to support the State and National Constitutions, and to perform with fidelity the duties devolving upon me as Governor. It shall be my constant aim and most earnest effort to observe the very strictest and most scrupulous means, and to the best of my ability, to discharge the duties of my office with fidelity and integrity.

Deeply impressed with the most profound gratitude, I can but express my most hearty thanks to the good citizen of this Commonwealth, who have reposed in me by re-election to the most honorable and most responsible position in their gift. But knowing well their expectations and requirements of one who occupies a position so exalted, it is with extreme diffidence I again undertake the responsibility of such an important, which even the boldest and most gifted might hesitate to assume. And however determined may be my endeavors to realize the expectations of my friends in support of the State, and to battle against whatever, in my judgment, may be wrong, still I am conscious of the necessity for some sustaining power, and therefore unhesitatingly acknowledge my dependence upon the enlightened support and patriotism of my fellow-citizens, and my ever-faithful aid of Him who controls alike the destinies of individuals and nations.

The settlement of the vexed questions growing out of the armed conflict with treason develops a mighty responsibility on the loyal men of the land, to resist, against whatever, in my judgment, may be wrong, still I am conscious of the necessity for some sustaining power, and therefore unhesitatingly acknowledge my dependence upon the enlightened support and patriotism of my fellow-citizens, and my ever-faithful aid of Him who controls alike the destinies of individuals and nations.

Forebly impressed with these ideas, I call upon all legislators, and upon all other good citizens, and especially upon the conductors of the public press, to aid in giving this tone to public sentiment which shall purify our State, and relieve her from the reproach of even countenancing those who would make a traffic of their office, in violation of their obligations. Look to it well and closely, fellow-citizens, and begin at once to teach your servants that the "public will" must be obeyed, and that the "public will" is the first object to be attained in a free government. If you permit special privileges to be granted to individuals, public treasury, and at the same time to corrupt the law-making branch of the Government, you pave the way to anarchy, you set the example which tempts to crime, and offer to the world the evidence most conclusive, that self-government is a failure.

Owing to the many efforts made on the part of free traders for the abatement of the natural and wholesome protection now afforded to our home industry and to labor, I consider it a subject which merits a portion of our time and attention. If our natural industry and natural productions, represented by thousands of factories, mines, and other sources of labor, are to be preserved, there should be no reduction of duties should be our constant effort, to improve our worked population of the Old World to flood our States with the product of their mines and workshops at the cost of our destruction. The articles thus admitted would undersell the products of our artisans at our very doors, and our factories would be compelled to close their doors, as well as to the injury of thousands of our citizens. This will throw out of employment thousands of industrious men, and entail ruin upon them and their families, merely for the benefit and aggrandizement of foreign manufacturers and capitalists. As soon as our industry and commerce are thus destroyed, the monopolist can command his own price, and it is thus clear that the policy of free-trade can never permanently benefit any country that will sanction its adoption. Impelled by every feeling of interest, humanity, and justice for our artisans, our laborers, and our countrymen, I feel that we should unhesitatingly set our faces against this policy. We should, therefore, not only earnestly legislate for the benefit of capital, but for the tolling sons and daughters of our country. It should be our constant effort, to improve our social condition, to advance their intellectual status, and above all to shield them from the destitution which is threatened by the enemies of protection to our industrial pursuits.

In my several messages to the Legislature I have taken occasion to refer to a subject which I regard as of paramount importance to the property and even the stability of our Government. No nation can long exist that attempts to violate any of its obligations. The most prominent among these is the faithful payment of all its indebtedness. The debt which we have given for the redemption of a single farthing, I said in my message of January, 1868, "The people of Pennsylvania, ever true to the Union, and unwavering in their determination to preserve its honor, integrity, and perpetuity, and to assert the sacredness of the national debt, and that its ultimate payment in full must be secured." In my message of 1869 I called attention to the same subject in these words: "The voice of Pennsylvania, as well as that of a majority of the States, has at the ballot-box proclaimed to the world that all our national indebtedness, no matter how heavy the burden, will be paid according to the letter and spirit of the agreement made and entered into on the time the debt was contracted; and that in this, as in all other respects, our individual and national honor must and shall be preserved." These sentiments, so clearly expressed, I have taken frequent occasion to reiterate, and it affords me great satisfaction to observe that many who have heretofore been hostile or silent on this most important subject, are becoming warm in their advocacy of the principles here enunciated.

Those who saved this Government from the destruction designed by treason, are they who will perpetuate it as a blessing for future generations. All that is asked of the people is to strengthen and uphold the hands of the men who have been called to the work of reconstruction, and when that work is finished in the spirit in which it has been begun by the present National administration, we will have a Government and a country mighty in their munificence, glorious in their prosperity.

The peace and quiet of our country, maintaining unshaken our national honor, and the harmony of the Union, are among our highest duties. Let us encourage every branch of home industry, advance the true interests of moral, physical, and intellectual labor, and let us be true to the principles of reconstruction, and when that work is finished in the spirit in which it has been begun by the present National administration, we will have a Government and a country mighty in their munificence, glorious in their prosperity.
